

CERCAMS-11 Workshop

Metallogeny of the Tethysides: From the Balkans to Turkey

The Natural History Museum, London
28th April 2008

This workshop organised under the umbrella of the successful CERCAMS initiative is a preliminary meeting to review existing tectonic models for the region and how they link to metallogeny in the Balkans and Turkey. The meeting will bring together teams from universities, academia and mining industry.

The workshop is co-sponsored by the project IGCP-524 on 'Arc-continent collision' led by Dr Dennis Brown (Barcelona).

There will be a series of invited presentations on tectonics, geodynamics and regional metallogeny with speakers from Turkey, Iran, UK, North America and others.

Confirmed speakers so far include Dr Ilkay Kuscu (Turkey), Dr Dejan Kozelj (Serbia) and Dr Charlie Moon (UK).

<i>Registration Costs (in UK £):</i>	
<i>CERCAMS Patrons (2 persons)</i>	<i>FREE</i>
<i>Full Registration</i>	<i>50</i>
<i>Registered Students</i>	<i>10</i>

VENUE

Flett Lecture Theatre, Natural History Museum,
Cromwell Road, London, SW7 5BD.

Enter through the Earth Galleries Entrance on Exhibition Road

PROVISIONAL PROGRAMME

- 10:00 REGISTRATION & COFFEE
- 10:30 A new reconstruction of the Tethys in the Upper Permian
A.M. Celal Sengor (ITU, Turkey)
- 11:00 Tectonic evolution and metallogeny of Eastern Turkey
I. Kuscu (Turkey)
- 11:30 Mineral deposits of Serbia and adjacent terranes
D. Kozelj (Serbia)
- 12:00 Title tbc
USGS (USA)
- 12:30 LUNCH
- 14:00 Tethys GIS project
C. Moon (U.K.)
- 14:30 Tethys regional metallogenic correlations
R. Herrington & R. Armstrong (NHM CERCAMS, U.K.)
